Vincent Davis, Director
Patterson Chair Professor
of International Studies

21 October 1978

Admiral Stansfield Turner, USN
Director of Central Intelligence
Washington, D.C. 20505

Dear Stan:-

In keeping with your desire to establish more open friendly contacts with the academic community, here's a suggestion for you.

I told [redacted] about your two NFAC unclassified publications series, Economic Indicators Weekly Review and International Energy Statistical Review. He said that he would very much like to get on your mailing list to receive these, although--of course--it's possible to get these too from the appropriate addresses at the Library of Congress.

I think that you might also want to make personal contact [redacted] either by inviting him to drop by to say hello on one of his fairly frequent trips to Washington, D.C., and/or perhaps a visit with him sometime in Seattle. He is a big warm friendly man with a marvelous sense of informal hospitality. He has been a senior man on fisheries problems in the U.S. Department of State in the past, and has actually spent more of his life in government work than in academic work.

Turner

Page 2

STAT But, from one side of the fence or the other, he has chaired most of the important committees pertaining to oceans management issues for the National Academy of Sciences, NOAA, and various international bodies. He is simply a top expert on almost all issues pertaining to the oceans (coastal zones management, deep oceans regimes, fisheries marine mining, etc.). I can assure you that you would like [redacted] The ball is in your court.

Unless and until I should hear otherwise, I am continuing to assume and plan that you would still want me on board with you during 1-12 January 1979, and probably for another two or three weeks or whatever in the last half of May perhaps cutting over into early June.

STAT This letter requires no reply. However, if you should want any personal contact as early as next week, I might just mention that I'll arrive in the Washington, D.C., area on late Wednesday afternoon, 25 October, for the annual DNRIP/RIAC/RIPO Conference to be held at NISC, 4301 Suitland Road in nearby Maryland. The schedule calls for us to work all day on Thursday, Friday and Saturday from about 0800 to 1700, and maybe even for a few hours on Sunday morning. But my evenings are my own, and most of Sunday afternoon and early evening. The man in charge of this conference will be my old Denver friend, Rear Admiral Martin J. "Marty" Andrew, USNR-R, who is the DNRIP in charge of the nationwide 1635 program. I hope that you can meet him sometime. If you should want to track me down after hours, I am supposed to have a room in the VOQ/BOQ at Andrews AFB. Needless to say, I will be listed under the Navy version of my full name: CAPT Benton V. Davis, USNR-R. -- [redacted] have invited me to join them for his Class of '51 party at the Bay Ridge Inn just down the Severn from Annapolis after the homecoming game on Saturday evening, so it's possible--I suppose--that I might also happen to see you somewhere in the vicinity of your Alma Mater too.

STAT Oh yes, I have a stack of photos that I've been meaning to send you. I'll try to get those off right away, probably routing them via [redacted]

STAT [redacted] Warmest personal regards,

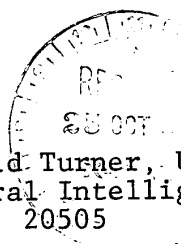

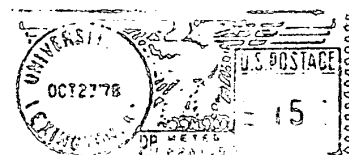

Vincent Davis
